

Overview Airvida C1

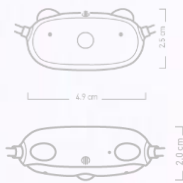

Airvida C1 is the world's only wearable air purifier designed specifically for kids aged 3 to 10. Airvida C1 generates 2,000,000 negative ions/cm³ every 0.6 second around your baby's face, 100 times more than natural forest ion concentration, to reduce PM2.5, pollen, airborne allergies & allergens that your baby may breathe in.

On top of great purifying ability, Airvida C1 is also safe and compliant. Complying with European CE standard, Airvida C1 meets CE radiation regulation without producing any harmful electric current. To ensure your baby's health, Airvida C1 applies FDA certified silicone case to prevent from allergy and toxicity.

Airvida C1 is superlight, only 22g. It's a perfect solution beneficial for kids to improve air quality all around, regardless of going out or staying in school, bus, public transportation, etc.

Specifications

- Weight: 22g (0.05lb)
- Dimensions: 4.9×2.5×2.0 cm (1.9×1.0×0.8 in.)
- Power: Built-in battery, rechargeable via micro-USB
- Operating Temperature: 0°C~40°C
- Relative Humidity: 30~85%
- Negative Ions: 2,000,000 ions per cm³
- Color: Duckling Yellow/ Koala Grey/Piggy Pink

APPLICATIONS

Haze / Smog

Pet Dander

Public Transport

Classroom

SAFETY

Ultra Low Ozone

Not only focusing on health protection, Airvida C1 also cares for your safety. According to the independent certificate lab test result, Airvida C1's ozone is only 0.007ppm. Comparing to European Commission standard, 0.007ppm is just nearly 10% to the limitation.

Extreme Low Radiation and electronic Current

Airvida C1 complies with CE safety, health and environmental requirements. Its radiation is far below regulatory limit, and the electric current is as low to 4~6μA (only 0.01% to the level of harmful electric current).

Zero Noise

No fans design makes the sound level of Airvida C1 nearly 0 dB, much quieter than reading in a library (40 dB). Your baby will be silently protected thanks to this noiseless design.

FDA Certified Silicone Case

Airvida C1 applies FDA (Food and Drug Administration) certified silicone case to ensure your baby's health. As the result, the material is certificated by this agency to validate its anti-allergy and non-toxicity.
