Airvida L1 Wearable Air Purifier Designed for trendy life

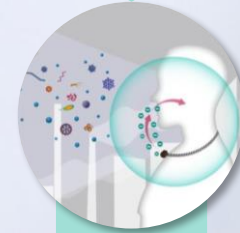

FEATURES

- **2,000,000 Negative Ions/cm³**
100 times more than natural negative ion concentration
- **70g Lightweight**
Dedicated efforts had been made to achieve the amazing lightweight.
- **Ergonomic Bracket**
Flexible bracket provides comfortable wearing.
- **No Further Supplies**
Self-sustainable design only requires simple regular cleaning
- **32 hours Long Life Battery**
Incredibly small built-in battery keeps you worry-free for days.
- **USB Rechargeable**
The most common way of recharging for your convenience.
- **Perfect Balance**
Airvida L1 is carefully weighted for wearing balance.
- **Silent Operation**
Fanless design for pleasant noise-free operation.

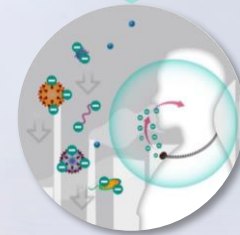

MECHANISM

- **Airborne particles**
Pollen, dust mite, second-hand smoke, pet dander, is the main reason causes our babies sneezing. PM2.5 another notorious air pollution threat, will bring negative impact on their growth

- **Airvida generates negative ions**
Airvida C1 can effectively eliminate airborne particles by generating 2 million negative ions every 0.6 seconds around the user's facial area

- **Negative ions will attach the particles within proximity**
Turning them into bigger & heavier chunks and thus falling to the ground

Overview

Airvida L1

Airvida L1 is a trendy wearable air purifier with patented double-vent design. This ergonomic design consistently generates 2,000,000 negative ions/cm³, 100 times more than natural forest ion concentration, to purify PM2.5, pollen, and smoke around your face. It weighs only 70g thus very comfortable to wear, with presentable elegance. A perfect solution to improve air quality outdoors or in office, car, restaurant, public transportation, etc.

APPLICATIONS

Haze / Smog

Pollen/ Pet Dander/ Allergens

Public Transports

Working Environment

SAFETY

Ultra Low Ozone

Not only focusing on health protection, Airvida L1 also cares for your safety. According to the independent certificate lab test result, Airvida L1's ozone is only 0.006ppm. Comparing to European Commission standard, 0.006ppm is just 10% to the limitation.

Extreme Low Radiation and electronic Current

Airvida L1 complies with CE safety, health and environmental requirements. Its radiation is far below regulatory limit, and the electric current is as low to 4-6μA (only 0.01% to the level of harmful electric current).

Zero Noise

No fans design makes Airvida L1's sound level nearly to 0 dB, much quieter than reading in a library (40 dB). A high-quality life should contain not only clean air, but noiseless environment.

Anti-allergy and Vegan

Airvida L1 applies silicon material which is widely used in medical instrument to avoid skin allergy. Also, vegan.

Specifications

- Weight: 70g (0.15 lb)
- Dimension: 16.9 x 13.3 x 6.1 cm (6.7 x 5.2 x 2.4 in)
- Power: Built-in battery, rechargeable via micro-USB
- Operating Ambient Temperature: 0°C to 40°C
- Relative Humidity: 30 to 85% noncondensing
- Ion Generation: 2,000,000 negative ions/cm³
- Colors: Space Black / Pearl White / Soft Pink
