## FEATURES

- **2,000,000 Negative Ions/cm<sup>3</sup>**  
100 times more than natural negative ion concentration
- **20g Super Lightweight**  
Dedicated efforts had been made to achieve the amazing lightweight.
- **Benefit of Titanium**  
Widely used in medical devices for antioxidant and anti-inflammatory purposes.
- **No Further Supplies**  
Self sustainable design only requires simple regular cleaning
- **28 hours Long Life Battery**  
Incredibly small but sustainable built-in battery lasts for 28 hours
- **Increase Circulation**  
Far infrared emission by titanium necklace activates blood circulation and metabolism
- **Use It Wherever You Are**  
Easy wear with titanium necklace/collar clip, or put on the desktop charging dock indoors
- **Silent Operation**  
Fanless design for pleasant noise-free operation.

## Airvida M1 Wearable Air Purifier

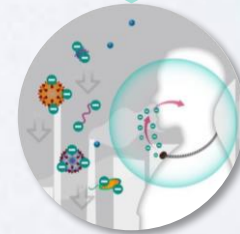

## MECHANISM

- **Airborne particles**  
Pollen, dust mite, second-hand smoke, pet dander, is the main reason causes our babies sneezing. PM2.5 another notorious air pollution threat, will bring negative impact on their growth

- **Airvida generates negative ions**  
Airvida C1 can effectively eliminate airborne particles by generating 2 million negative ions every 0.6 seconds around the user's facial area

- **Negative ions will attach the particles within proximity**  
Turning them into bigger & heavier chunks and thus falling to the ground

## Overview

### Airvida M1

Airvida M1 is the smallest air purifier around the world. It's only 20g and easily worn with a titanium necklace or a collar clip for daily clothing. Putting on its charging dock, Airvida M1 can become an elegant desktop air purifier.

Airvida M1 constantly creates 2,000,000 negative ions/cm<sup>3</sup>, 100 times more than natural forest ion concentration, to purify PM2.5, pollen, and smoke around your face. It's a perfect solution to improve air quality outdoor or in office, car, restaurant, public transportation, etc.

## Specifications

- Weight: 20g (0.04lb)
- Dimension: 5.7×2.0×1.4cm (2.2×0.8×0.6 in)
- Power: Built-in battery, 28 hours operation on a single charge
- Operating Ambient Temperature: 0°C to 40°C
- Relative Humidity: 30~85%
- Ion Generation: 2,000,000 negative ions/cm<sup>3</sup>
- Accessory: Charging dock (with USB cable and adaptor), titanium necklace, collar clip
- Titanium Necklace Style: Intrecciato/ Normcore
- Titanium Necklace Style: 45/ 50cm (17.7/ 19.7 in)
- Color: Space Black/ Pearl White

## APPLICATIONS

Haze / Smog

Pollen/ Pet Dander/ Allergens

Public Transports

Working Environment

## SAFETY

### Ultra Low Ozone

Not only focusing on health protection, Airvida M1 also cares for your safety. According to the independent certificate lab test result, Airvida M1's ozone is only 0.006ppm. Comparing to European Commission standard, 0.006ppm is just 10% to the limitation.

### Extreme Low Radiation and electronic Current

Airvida M1 complies with CE safety, health and environmental requirements. Its radiation is far below regulatory limit, and the electric current is as low to 4-6μA (only 0.01% to the level of harmful electric current).

### Zero Noise

No fans design makes Airvida M1's sound level nearly to 0 dB, much quieter than reading in a library (40 dB). A high-quality life should contain not only clean air, but noiseless environment.

### Anti-allergy and Vegan

Airvida M1 applies PU material which is widely used in clothing to avoid skin allergy. According to SGS certification, no formaldehyde (CH<sub>2</sub>O), azo, and plasticizer is detected in Airvida M1's PU material. Besides, Airvida M1 is also vegan product.
